Legislative Counsel's Digest

SB 1199, as amended, Hancock. Wild and Scenic Rivers: Mokelumne River.

The California Wild and Scenic Rivers Act includes specified rivers and segments thereof within the California Wild and Scenic River *Rivers* system, which are subject to various protections under the act. Existing law requires the Natural Resources Agency to coordinate the activities of state agencies whose activities affect the rivers in the system, as specified, and to study and submit to the Governor and the Legislature reports on the suitability or nonsuitability of designated potential additions to the system. This bill would include within the system specified segments of the Mokelumne River, and would designate those segments as wild, scenic, or recreational.
